Are you prepared to bring home this animal?

Thoroughly researching an animal prior to bringing it home is a must for reptiles and amphibians. Each species can have their own different and individual requirements, so it's vital to know the in's and out's of the specific animal. At Small World Reptiles, we pride ourselves in the education of our reptiles, amphibians and invertebrates. But a lot of the research is down to you! Have you done enough research? Find out by filling in this form!

Species' common name : _____ (0.5 points)

Species' Latin name : _____ (1 point)

Species' native country(s) _____ (2 points)

Type of climates for species

Arid ()

Tropical ()

Desert ()

(3 points)
